

LATIN AMERICAN MINERALS ANNOUNCES GOLD STREAMING AGREEMENT AND CONCURRENT FINANCING

April 1, 2016. Toronto, Ontario. Latin American Minerals LAT-TSX-V (“LAT” or the “Company”) today announced the signing of a non-binding Term Sheet (“Term Sheet”) for a gold streaming metal purchase agreement (“Metal Purchase Agreement”) for its Paso Yobai gold project with SilverStream SEZC (SilverStream) and a concurrent private placement financing for CAD\$500k. The Metal Purchase Agreement is subject to satisfactory due diligence by SilverStream.

Highlights

- SilverStream to provide US\$1,000,000 to LAT in 3 tranches, \$500,000 on the signing of a binding Metal Purchase Agreement and two further tranches of \$250,000 based on near term production milestones.
- SilverStream will have the right to purchase 43% of the total production of gold from the project, at a price per ounce equaling the lesser of US\$350 per ounce or 80% of the prevailing market price of gold until 1,500 ounces have been delivered. Thereafter the metal stream shall reduce to 7.5% of production for the life of the project.
- A SilverStream representative will be appointed as a non-executive director of LAT.

Basil Botha, CEO & Chairman of the company said; “This gold stream is an important milestone for LAT. It validates the extensive work already done and the viability of the project. It also enables us to implement the recommendations from the J.T. Boyd report (see shareholder update February 22nd, 2016) to improve production at the Independencia mine. The concurrent financing will be used for G&A and production based initiatives.”

The Concurrent Financing

The Company also announced that it intends to complete a private placement at a share price of \$0.12 per unit (the “**Purchase Price**”) for gross proceeds of up to \$500,000 (the “**Offering**”). Each Unit is comprised of one common share of the Company (each “**Common Share**”) and one half of one common share purchase warrant of the Company (each whole warrant “**Warrant**”). Each whole Warrant entitles the holder thereof to purchase one Common Share for a period of two (2) years after the closing date of the Offering at a price of \$0.18 per share.

The warrants are callable once the shares have traded at \$0.30 for more than 20

consecutive days.

About the Company

Latin American Minerals Inc. is a mineral exploration and gold mining company which holds its core gold and diamond projects in Paraguay. The Company is currently expanding its Independencia Mine gold processing plant to encompass vat-leach gold recovery from mineralization extracted in open pit bulk mining activities at its fully permitted mining concession.

Management has identified six gold zones for drill testing on the Company's adjacent exploration claims, which is part of the Company's 15,020 hectare Paso Yobai gold project.
